

Comprehensive Round 2 Report Briefing

March 1, 2007

9:00 am – 5:00 pm

**5th Avenue Suites/Hotel Monaco
506 SW Washington Street, Portland**

AGENDA

As stated in the Round 2 Report, this comprehensive analysis is designed to be a tool that the LWG and EPA can use to confirm and define data gaps that need to be filled in order to complete the RI/FS. The LWG recognizes that there are several different methods that can be used to evaluate these data; however, the data gaps analysis provided in this report is an accurate representation of outstanding project data needs. The LWG will work diligently with EPA to arrive at a mutually understood and acceptable Round 3 data collection effort.

The purpose of this meeting is to provide the Agency Team an overview of the Round 2 Report. The LWG will focus on issues and methodologies that have not been fully vetted with the Agency Team, but which were necessary in order to complete the analyses. The LWG will identify and discuss these issues and methodologies, highlight where the pertinent supporting information can be found in the report, and summarize the findings.

9:00 – 9:10	Introductions & Opening (McKenna and Blischke – 10 minutes)
9:10 – 9:20	Objectives of R2 Report (McKenna – 10 minutes)
